Mayor and Council, Attached is the receipt when Mr Clark paid for his copy of the checks he requested. He only took a copy of the first check on the list. Second is an actual copy of the check he took a copy of. Also attached is a copy of the March 21st (day after he was on the agenda) and May 2nd emails following up when he said he didn't get copies. The attached checks in these two emails are not public documents as they have routing numbers etc on them which are not redacted yet.

I don't know what his reasoning is for saying he didn't get them.
